## Bus Service on L.A. Run Is Increased

Increased service night and morning by Torrance Municipal buses on the Los Angeles run will be inaugurated next Monday, according to M. A. Chamberlain, superintendent.

Half-hour service will be provided, starting at 7:20 a.m., throughout the day until 6:10 p.m.

During the rush hour from 4 to 6 p.m. between Los Angeles and Torrance, 15-minute service will be provided, Chamberlain said.

After 6 p.m., hourly service will be provided on the Los Angeles run.

**MORE NEW TYPE SIGNALS**—Portable and "armless" street center signals of the type shown here at Border avenue and Carson street will be in operation at four school crossing intersections beginning with the start of school next Monday. The signals will replace three part-time crossing guards now employed by the city. Officers in the photo are, (left to right) H. D. Trezise and L. J. Beal.

## Chief Issues Warning to Auto Drivers

With the clanging of school bells which will start ringing Monday morning as three thousand Torrance children start back to school Police Chief John Stroh issued a warning to all motorists yesterday to observe traffic laws.

New portable armless signals will be installed Monday morning at four intersections where traffic of school children crossing streets is heaviest, Stroh announced yesterday.

The new signals will operate from 7 a.m. to 5 p.m. at the following locations:

Arlington avenue and 220th street.  
Carson street and Martina avenue.  
Torrance boulevard and Arlington avenue.  
Cota avenue and Torrance boulevard.

The signals are similar to the one in operation at present at Border avenue and Carson street.

He warned that citations will be issued to motorists who fail to stop for the signals.

## Orders Placed for Equipment to Cut Smog

Plans for nearly \$500,000 worth of air pollution control equipment have been approved by county smog control engineers in the past four months, and the number of such remedial installations by industry is increasing rapidly, Dr. Louis C. McCabe, Air Pollution Control director said yesterday.

"The public readily understands that it takes several years to build a huge sewage system costing thirty to forty million dollars, but removal of pollution from the air is a more complex—as well as a more obvious—problem," Dr. McCabe said.

Illustrating the increasing tempo of acceptance by industry of the control program, Dr. McCabe pointed out that permits for pollution abatement equipment had increased from a value of \$69,000 in May, to \$97,000 in July and \$147,000 in August.

## USED CAR PERMIT

A permit to operate a used car lot at 2084-2092 Torrance boulevard has been granted to R. E. Tuttle by the city council.

## LETTERS to the EDITOR

Editor Torrance Herald  
Dear Sir:

Please renew my subscription for the Torrance Herald for a year. I enclose \$3.50. The six months' subscription was very much enjoyed many items being put in my file on school publicity. I am rather inclined to look a newspaper over thoroughly and found a lot of very interesting news in the Herald.

It may not be practical, but it seems to me that with all the new people coming into Torrance in these building projects, that a pride in Torrance as a flourishing town should be built up. I can think of no better agency than your newspaper.

Torrance must have quite a history. From my visits to various places around town, I feel that a series of short historical sketches on the fire hall, the police department (I was surprised to find out that there were five traffic radio car policemen) and other town institutions could be written up over a period of several months with the purpose of developing pride in Torrance.

Somewhat I think of what progress has been made and how little credit has been given to the people who have helped to build Torrance.

Here's hoping your new building is coming along in fine shape, and congratulations on a good, clean, community-minded paper.

Sincerely yours  
Mrs. Ethel M. Lewis  
1010 West 78th street  
Los Angeles 44, Calif.
